DELIGHTS SHOP
Dates & Chocolates

A SWEET START

The story of the Delights Shop dates back to 1998 when a farm nestled in the low-lying strip of the Jordan Valley was born. Better known as the Progressive Agricultural Investment Company (PAI), the family farm was established to produce the large, sweet and succulent Medjool date, exclusively grown in the Jordan Valley.

Back in 1998, PAI was the first of its kind in Jordan as the only family farm capable of producing a Jordanian product that competes with any international market in terms of quality, price and packaging. When PAI began cultivating the Medjool date, there were around 600 trees planted throughout two of its plantations. Today, there are more than 9,800 date trees on over 1,000 dunums, with another 500 dunums to be added in the near future.

PAI quickly became a pioneer in its field and realized that it was the ideal time to expand the business. The Delights Company for Dates and Chocolates (former owner of The Home of Desert Delights) was established as a sister company to PAI to fulfill the potential of the Medjool date by pairing it with the luscious Belgian Chocolate Belcolade and packaging it for special occasions. The Delights Company for Dates and Chocolates cemented its position in the market as a renowned dates and chocolate factory, which paved the way for the launch of The Delights Shop.

TO YOUR HEALTH!

The Delights Shop is an affordable, deluxe chocolatier that specializes in fresh, handcrafted gourmet chocolate-covered dates that are rich in taste and infused with nutrients. It is important for us, as a sociably responsible company, to provide our customers not only with extraordinary delights but also with that added health value.

It is a known fact that one date is a sufficient, balanced and healthy source of nutrition. For centuries, dates have been consumed in the Middle East as part of their diet, mainly for its high nutritional value. Apart from being rich in natural fibers, dates also comprise various other nutrients, like oil, calcium, sulfur, iron, potassium, phosphorous, manganese, copper, magnesium and much more.

As for the fine dark chocolate that we use, Belcolade is a top quality Belgian chocolate that is dedicated to people who are passionate about chocolate and addicted to quality. Chocolate is made from plants, which means it contains many of the health benefits of dark vegetables. These benefits are from antioxidants that protect the body from aging and protect the heart by lowering cholesterol and blood pressure. Dark chocolate contains a large number of antioxidants-- nearly 8 times the number found in strawberries.

MINI DELIGHTS

This bite-size, nutritious indulgence introduces pureed dates fused with rosewater, ginger, or crushed espresso beans and covered with bitter-sweet dark chocolate, or just a simple date covered with a decadent dark chocolate. This wholesome and fresh delight is rich in taste and infused with nutrients.

Available flavors

Rosewater: The aroma and medicinal powers make this “flavour” a very popular one. It helps stimulate the nervous system, and offer antiseptic and antibacterial properties.

Ginger: Used for over 2,500 years as a medicine, Ginger protects the body against nausea, digestive problems and arthritis.

Espresso: The coffee bean is incredibly rich with antioxidants, amino acids, vitamins and minerals. Research show that coffee boosts the immune system and may help stave off heart disease.
